

Transform your teaching with Snapplify's suite of products for digital reading and e-learning. Internationally recognised for empowering educators and students to teach and learn, digitally, our award-winning platform is already a top choice for institutions integrating digital education into their classrooms.

READ BOOKS IN ALL 11 SOUTH AFRICAN LANGUAGES

LARGEST CATALOGUE OF LOCAL AND INTERNATIONAL E-TEXTBOOKS IN AFRICA

## A secure, collaborative e-learning environment

Engage combines Snapplify's e-learning products into a single platform, providing institutions with everything that they need to teach and learn in the 21st century classroom. **Administrators** are able to seamlessly manage access to all users, and educators can share teacher-created, multimedia resources with their students using the **Resources and Groups** functions.

Snapplify's **Library** offers schools a robust, 24-hour access digital library solution that promotes reading and learning with top quality ebooks and **prescribed e-textbooks**.

To explore the Engage platform, visit [engage.snapplify.com/get-started](http://engage.snapplify.com/get-started) to sign up today.

Leading schools are using our responsive and interactive e-learning solutions

## Insightful analytics of student activity

Using Insights, you can track and download data on your students' ebook usage and reading behaviour to analyse how they interact with educational material. Then use this perceptive data to inform your content choices, annual budgets and teaching strategies, so your institution can learn and grow.

### Access to dynamic, interactive content – anywhere

Snapplify's free Reader application can be used on any device and allows you to access all your content in one place. The app includes a number of academic and accessibility features, and can be used online or offline, wherever you are.

### Saving data & download time

The award-winning Snappbox is a hardware distribution solution for ebooks, allowing students to access their digital books within their school directly, rather than downloading them each individually from the internet.

### Bulk device procurement for your school

To ensure that your school gets the most out of reading and learning digitally, we offer a selection of affordable devices chosen specifically for their reliability and compatibility with the classroom environment.

Access content in various formats, across multiple platforms

### We're here for you

Snapplify is committed to supporting your school and an essential part of this is supporting educators. For schools signed with Snapplify, we offer customised training workshops, as well as ongoing technical support.

### Integrated with Google Classroom

If your institution is already using Google Classroom, you can keep things seamless with Snapplify's Google Classroom integration. Users simply log in to the Snapplify platform using their existing Google accounts.
